

# Area 3 Mini-Report

November 18, 2022

**What was done this week?**

- Prepared mid-course presentation.
- Wrote simple tests.

**What issues/risks/blockers do you have?**

- Understanding how tests and unit tests should be done while using the functionality of the main solution

**What is the goal for the next week?**

- Update requirements specification;
- Update technical specification;
- Write additional tests;
- Improve current algorithms;
- If the algorithms will be completely done, upload our solution to PIP;

Current status - Yellow
