

AREA 3
MINI REPORT
2022.10.14

What was done this week?

- We had an online meeting on Wednesday;
- Python tutorials;
- Experimented with 2D models on Python.

What issues/risks/blockers do you have?

- Activity of the team was too weak since we finished requirements specification;
- It is not very clear how we should realize our solution.

What is the goal for next week?

- Find sufficient mathematical solution to implement our task.
