

**AREA 3**  
**MINI REPORT**  
**2022.09.30**

**What was done this week?**

- Created *Discord* channel for Area 3;
- We had a meeting on *Discord*. Analysed how requirements specification should be written, what is a must to include and what is not, etc;
- Started writing requirements specification on MS Teams document;
- We moved from VU GitLab to GitHub;
- Area 3 branch on GitHub was created.

**What issues/risks/blockers do you have?**

- Since there is no Area 2 team, we were not able to communicate with this team;

**What is the goal for next week?**

- Learn *Latex*;
- Improve, complete and submit requirements specification;
- Start using *Python*. Have a better understanding than basic knowledge.
