Mini Report Team 5 (11.11.2022)

Done things:

- Started to create an interface using Tkinter.

Issues:

- Not enough communication with other teams for now and no exact vision of how to connect everything together.

- Implementation of the system using Tkinter takes more time than expected.

Future plans:

- Fully implement created design in Figma using Tkinter.

- Create a more detailed plan of connecting each team's part together.

- Generate the executable file of the desktop application.
